

Computational Science and Public Policy Management 计算科学与公共政策管理 Venue地点: TA101	
Chair: LIAO Ruizhi Assistant Professor (Teaching), School of Humanities and Social Science, The Chinese University of Hong Kong, Shenzhen 主持人: 廖睿智 香港中文大学 (深圳) 人文社科学院助理教授 (教学)	
15:30-17:30	Research on the spatial-temporal evolution risk perception trajectory under public health emergencies based on GDELT database 基于GDELT库的突发公共卫生事件下风险感知时空演变轨迹研究
	LU Yifan Inner Mongolia University of Science and Technology 吕一帆 内蒙古科技大学
	Bibliometric Analysis of Computer Education Targeting Non-Computer Majors 面向非计算机专业学生计算机教育的文献计量学分析
	ZHANG Zijie The Chinese University of Hong Kong, Shenzhen 张梓杰 香港中文大学 (深圳)
	City Scale's Law of Social Capital on Health 城市规模社会资本对健康的影响规律
	HUANG Wenjing Shanghai Academy of Social Science 黄文景 上海社会科学院

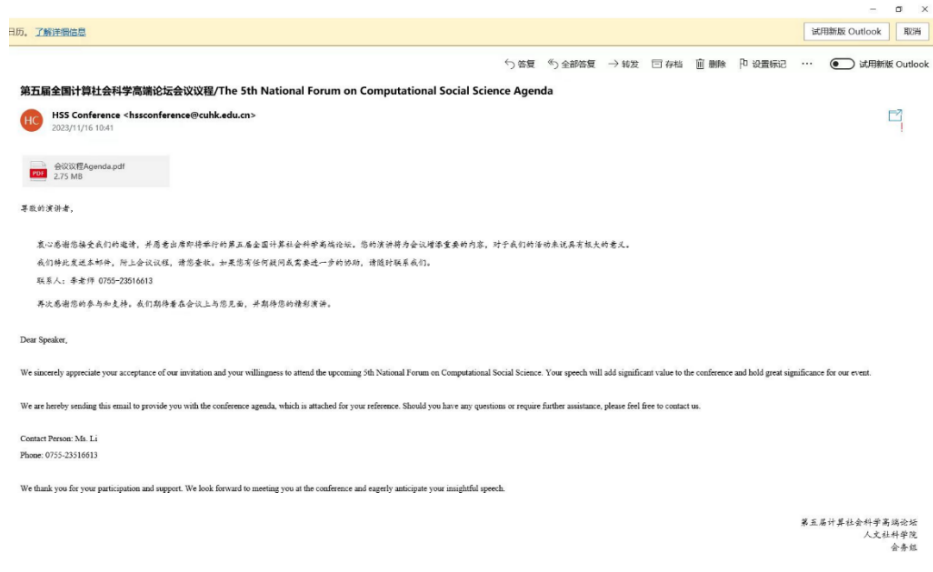

This screenshot is proof that my paper “Bibliometric Analysis of Computer Education Targeting Non-Computer Majors” was accepted for the 5th Chinese National Forum on Computational Social Science. This screenshot is from the online article of the forum organizer (The School of Humanities and Social Science of The Chinese University of Hong Kong, Shenzhen) showing the forum schedule. My speech information in this forum is shown in this screenshot. This online article can be found at the link <https://mp.weixin.qq.com/s/3K8STDzlKiTjtLK4Z9QEug>

This paper was submitted to the conference by the corresponding author Prof. Ruizhi LIAO. This e-mail screenshot above shows the paper-acceptance e-mail that he received and this screenshot was sent to me by him.

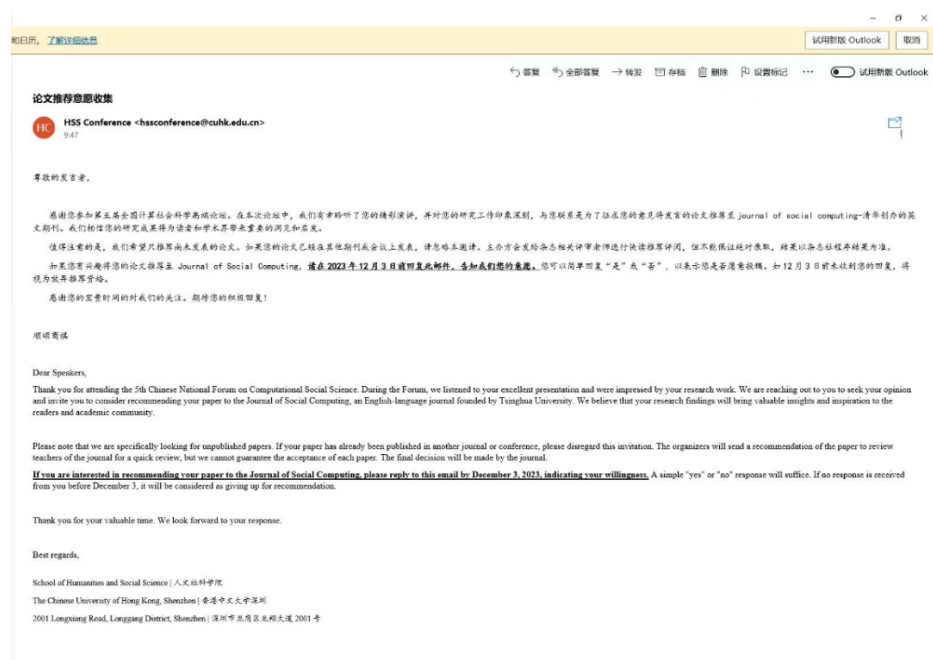

The speaker registration was registered with my information as I am the first author of this paper. Thus, the thereafter conference-related e-mails were all sent to me.

Proof of this paper's acceptance for the conference is continued on the next page.

This e-mail screenshot shows the e-mail that the conference organizer (The School of Humanities and Social Science of The Chinese University of Hong Kong, Shenzhen) sent to me after the conference organizer received my speaker registration information. In this e-mail, the conference organizer sent me the conference agenda.

I gave my speech on 19/11/2023.

This e-mail screenshot is from the conference organizer (The School of Humanities and Social Science of The Chinese University of Hong Kong, Shenzhen), who reached out to me (as a conference speaker) to seek my opinion and invite me to consider recommending my paper to the Journal of Social Computing, an English-language journal founded by Tsinghua University. I have replied “yes” to the conference organizer.
